HOBBIES

Listening to Music

Reading

Blogging

Passionate software engineering graduate with hands-on experience in developing web applications using React JS. A quick learner, proficient in developing user friendly interfaces, writing and debugging code, coming up with innovative solutions to complex problems and implementing new features based on user feedback.

WORK EXPERIENCE

Gadgeon Smart Systems

(July 23, 2021 - Present)

Software Engineer

- Has developed user friendly UI for web applications of Delpheon Platform that are rich in widgets that helps in visualizing the data coming from various sensors and allows the user to handle various events pertaining to the same.
- Learned all the basics very quickly and was able to provide innovative solutions which resulted in being integrated into client side projects within 2 months of joining as a fresher.
- Also developed ready to use widgets for Application Engineers with limited coding experience to use in demos with little to no effort.
